

Regulator with FBA

Trust Series 18 LP

Pressure Regulator -
LPG / Propane / Cutting Gas
with Safety Gauge & Flash Back Arrestor
2 Port Configuration
Industrial Purpose
Inlet Size : 25.6 mm/22 mm/20 mm

Bottom / Side / Rear Entry

Gas Services :

- LPG
- Propane
- Cutting Gas

Trust Series 200 - Y

Gas Regulator, Single Stage
2 Gauges

Brass Construction
Bottom / Side / Rear Entry

Gas Services :

- Oxygen
- Hydrogen
- CO2
- Nitrogen
- Argon
- Helium

Trust Series 400

Two Stage, Cylinder Regulator
with 2 Safety Gauges and Safety
Relief Valve

Bottom / Side / Rear Entry

Gas Services :

- Oxygen
- Hydrogen
- CO2
- Nitrogen
- Argon
- Helium

Trust Series 214

Heavy Duty High Flow
Single Stage Gas Regulator

Bottom / Side / Rear Entry

Available for Oxygen, Nitrogen, Co2,
Argon, Hydrogen, Helium Gases

Applications :

- Heating
- Cutting
- Pipe Line / Manifold System
- Flame Cutting / Biller Cutting
- Foundry

Trust Series 81 LP

Adjustable High Pressure Regulator
- Propane / LPG / Cutting Gas

with Safety Gauges

2 Port Configuration

Industrial Purpose

Bottom / Side / Rear Entry

Gas Services :

- LPG
- Propane

Single Stage Regulator with Flow Meter

TIG / MIG - 200Y - Series

Brass Construction

Single Stage Regulator + Flow Meter

Tig & Mig Welding Process

Bottom / Side / Rear Entry

Gas Services :

- Argon
- Helium
- CO2

Single Stage Regulator without Flow Meter

E-SERIES-009

Argon Gas Flow Gauge Regulator

Single Stage With Two Gauge

Bottom / Side / Rear Entry

Gas Services :

- Argon
- CO2
- Co2+ Argon Gas Mixtuers

Trust Series - 36 LP

Fine Flow Gas Regulator - LPG / Propane / Cutting Gas

with 2 Safety Gauges and Flash Back Arrestor
(Optional)
2 Port Configuration

Industrial Purpose

Trust Series - 36 LP series Regulator is intended for pressure control of liquefied gases. It is designed to provide quality performance. Constant control and pressure delivery inspite of inlet pressure variations.

Applications :

- Welding
- Heating
- Cutting
- Soldering
- Brazing

Trust Series - 333

Co2 Gas Regulator Built In Heater & Flowmeter

Brass Construction

Tig & Mig Welding Process, Side Entry

Trust Series - 333 , Co2 Gas Regulator Built In Heater & Flow meter intended for applications that require flow rate, consistent delivery pressure. The compact pressure compensated design meant for professional welders, laboratory and industrial process user. It ensures fine flow control of the relative gas for excellent end result.

Gas Services :

- Argon
- CO2
